MACDONALD COLLEGE

FRIDAY, OCTOBER 25, 1963

MAC ROUTS U. of M. 34-7

First Win This Year

The unusually warm weather of Saturday October 19th, witnessed the first victory of the hitherto unvictorious Mac Aggies, who beat the University of Montreal Carbines by a handsome score of 34 to 7.

The first point of the game was made by the U. of M. gaining one point for a rouge. However, the first touchdown of the game was scored by the Aggies, when Al Brewer carried the ball four yards on a hand-off from the quarterback.

PROMISING FUTURE FOR I.S.O.

"Man and His Resources" was one of two films shown at last Sunday's meeting of the I.S.O. The other was a Canadian film entitled "Cattle Ranch". A constitution, presented by the new executive, was unanimously ratified at the meeting; setting the I.S.O. on the way to official recognition by the Students' Council.

Mrs. L. Wood, the Deputy Warden, was elected Honorary President for the year. She has always been an active contributor to the I.S.O.

The next meeting will be held on Sunday November 3rd at 1:30 p.m. in the Laird Hall Lounge. Professor Underwood is to speak on Indonesia and will show some slides. A discussion will follow.

In the future the I.S.O. will co-operate with various National Student Organizations. There will be three Big International Parties this year at which a national group will put on entertainment for a maximum of one hour and a dance will follow. The aim is to give each group a chance to show its country's culture and national foods to others.

The organization is also interested in supporting the Martin Luther King Fund. Anyone who is interested in further information about this Fund should see the poster just inside the front door of the Main Building.

Candid Camera

Stewart Hall has piglets, Brittain Hall has water bombs, But what has Laird Hall got?

SPOTLIGHTS

The second TD of the game was also scored by the Aggies when Endman Jeff Mills took the ball across the line on a pass and run of 50 yards. This TD was then converted by the quarterback. In the third quarter of the game the U. of M. scored on an end run bringing the score to 13-7.

Then Bryan Murray took the ball on a hand-off, and following the beautiful blocking of the linemen, ran 55 yards to score a touchdown, which was then converted by George Wall. Late in the third period, Ted "Killer" Horton, a standout on defence, made a fantastic catch giving him his first touchdown of his Intercollegiate Football career. Again this was converted by the quarterback. Then halfback Al Brewer forced a rouge and gained a point for the Big Green Team. The last TD of the game was scored by Terry Bradley in the middle of the last period on a sixty yard pass, coupled with a run of ten yards. This brought the game to an end with the Mac Aggies trouncing the Carbines 34 to 7. There were however two injuries sustained in the game, that will lead to the players being unable to play for a while. These were a broken ankle for Monpetit of the Carbines, and a broken nose for Gary Walther of

Mac's Quarterback, George Wall, dodges a horde of Carbine tacklers as he heads down the field close to the sideline.

the Aggies. There was however, a very disappointing turnout to the game, relative to the other ones, and it is hoped that on the 26th, when the Aggies meet McGill that more spectators will plan to attend. Also remember that the big Bishop's game is coming up on the Ninth of November, and plans are being made for spectators to be transported to see it. It is hoped that many of you will plan to attend, as this game will be well worth going to.

Tractor Rodeo Coming Tomorrow

College Royal tractor rodeo will be held tomorrow October 26. In the past years the Tractor Rodeo, which is part of the Macdonald College Royal, has been held immediately preceding the Royal in February. The reasons for this change are because in past years there has been some difficulty due to the weather, and weather permitting, the rodeo tomorrow should prove to be most interesting and exciting. Come out and support your class representative.

A demonstration of the events will be held Saturday morning at 11:30 a.m. October 26, on the Soccer Field for those taking part in the rodeo.

Rules of Tractor Rodeo are as follows:

The competition will consist of four events. They are: Mounted Implement Hitch and Unhitch; Trailed Imple-

ment Hitch and Unhitch; Four Axle Back-up; and Field Operation of a Trailed Implement.

- 1) The judges decision will be final
- 2) Any entrant taking more than six minutes for an event will be disqualified
- 3) Tractors and Implements will be provided
- 4) All tractors will be warm and should start easily. However judges will take into consideration any delay or failure to start which is not the fault of the entrant
- 5) Notwithstanding the scoring penalty listed under each event, if, in the opinion of the judges the entrant is operating a tractor in a decidedly unsafe manner, that entrant will be disqualified.

A driver should have no trouble finishing within the

Fieldhouse Addresses Annual Assembly

On Oct. 23, 1963, the Annual Assembly was held in the Assembly Hall beginning with the academic procession of professors, award winners, and prize donors. After the College Anthems were sung, Dr. Dion welcomed the assembled, expressing pride in the academic achievement of the award winners.

The presentation of Medals and Scholarships was made by Vice-principal H.N. Fieldhouse of McGill. The Industrial Prizes were then presented to the meritots by the representatives of the respective industries. Awards were also presented by the different associations and clubs with an interest

S.T.S.

Unfortunately, as some of you may already know, only two nominations were received for the five executive members; therefore no election would be held. The two nominees were:

Sue Dyer, for Secretary.
James Bissell, for Second Vice-President.

The nomination period has been extended to Thursday October 24 at 1:00 P.M.

Latest nominations to date for the position of President, Vice-President, and Treasurer respectively are:

Barry Tennier, for President.
Reid Barter, for Vice-President.
Dan Parkinson, for Treasurer.

As soon as possible a meeting of the S.T.S. shall be held during which the nominees will be introduced.

in academic advancement at Macdonald.

Following the presentations, Davis Appleton, President of the Students' Society, introduced Vice-Principal Fieldhouse, the guest speaker.

Vice-Principal Fieldhouse began his talk by emphasizing the essential unity existing between McGill and Macdonald. His talk was developed on the basis of Using History as a Guide to Modern Problems. Being a Historian, Vice-Principal Fieldhouse was well prepared to talk on the troubled times this province and country are going through, with the separate desires and views of nationality held by the French and English. He explained the different meanings of the word "national" using "personal nationality" and "state nationality" as the different types. He illustrated his views with examples taken from past history concerning occurrences in Europe where personal nationality of a group of people was forced upon a country regardless of their state nationality. These were vivid examples taken from Greek and Austro-Hungarian histories. He also commented on the fact that such a situation developing in Canada (or Quebec) would wreck Canada both ways, the French and the English way.

(Continued on Page 4)

EDITORIALS COMMENTS

Welcome To The Clan

The Diploma in Agriculture students began their 1963-64 session last week. We would like to extend a sincere welcome to the new arrivals, and to welcome back the sophomores.

The Diploma course affords an ideal opportunity for a first hand exchange between the academic and the practical man... The students are exposed to the latest technical improvements across a wide range of agricultural subjects. The professional academics, on the other hand, are kept in close touch with the practices obtaining across the country.

The Diploma in Agriculture Course is certainly not easy and you boys have a stiff challenge to meet; we wish you every success.

To Be Or Not To Be

Let us have some consistency in our policy regarding freshmen initiation. Three years ago all hazing and penalizing forms of initiation were banned on this campus. This was a move which we heartily endorse. College environment should be one which is conducive to the development of young adults.

However one vestige of the old barbarism is still being maintained. This is the policy of applying fines to those freshmen not participating in various assigned work programs.

Please do not mistake our intentions. We certainly would not be asking for a softer treatment of the freshmen as such. In fact, the freshmen have probably been treated with too much flowers and candy, this year as it is. Our point is that the policy of these fines is directly contrary to the policy regarding initiation.

Coffee Shop... Revisited

Do you realize that at least \$30,000 of our students' money is going into the hands of entrepreneurs outside the college? This money could readily be spent within the college, if enlightened steps were taken. These steps might also lead to a much safer atmosphere for parties.

Whenever parties, formal or otherwise, are held at 'Joe's' the Red Barn or any of the local establishments, students spend a substantial amount of money, more than they would spend for the same goods and services in a non-profit situation, as well as exposing themselves to the increased perils of traffic due to their impaired condition.

What we are suggesting is a change in campus regulations which would permit the serving of alcoholic beverages on campus. Such facilities operated on a non-profit basis would save money for the students, and by their proximity to the residences would enable those who over-indulged to get home safely.

We would humbly suggest that Jim Banting and his Coffee-Shop committee investigate the possibilities.

Letters To The Editors

We Object

Concerning the article in the last week's Failt-Ye addressed to the Sophomore Teachers:

Dear Fellow Teacher:

It is quite obvious that you haven't investigated the active rôle which teachers are playing in campus activities. It was stated, and we quote, "Notice who the leaders in all the activities are — Aggies, Home Ecs, and Fizzeds." We beg to differ. There are Sophomore teacher representatives on the Student Council, the Royal Executive, the Lit. & Deb., the Failt-Ye staff and various other student organizations. Granted there was a poor turnout of sophomore teachers at the Tabloid Meet but the spirit was still there.

Because of poor publicity concerning the nominations for the Student Teachers' Society, few candidates were presented. The teachers have been given another opportunity to nominate. So dear friend, this is your chance to support the Sophomore class!

According to you, "We teachers have absolutely no spirit or pride in our class." We can now consider the participation of the Sophomore class in the amateur show last Wednesday night. Most of the contestants were from the Sophomore teacher class. If these facts do not illustrate spirit and pride in the Sophomore class, please tell us what does.

In conclusion, it is YOU who must wake up and really see what the Sophomore Teachers are doing on this campus.

Loyal Teachers of '64.

Inhospitable

It is very regrettable to note that several foreign students, particularly post-graduates, have, on arrival at this campus, been faced with the problem of finding suitable residential accommodation. Many of these students come from countries with climatic conditions quite different from those prevailing in Canada. Hence it is highly desirable that they should be well protected from the rigours of the Canadian climate.

However, many foreign students on arrival at the beginning of this session have found it extremely difficult to find accommodation with the minimal facilities required for comfortable living under these climate conditions.

In this connection, it is relevant to point out that in most Universities and Colleges in other countries, foreign students are always found suitable living accommodation by the appropriate authorities at these institutions. If such accom-

modation is limited, then institutions quite rightly refuse to admit students from foreign countries in excess to a available accommodation. Thus the foreign student is spared the unpleasant situation of having to come to a strange country and start to hunt for living accommodations.

Unfortunately, the situation on this campus is quite contrary to what happens in other parts of the world. Thus it is not surprising to find foreign students on this campus living in places that are not suitable for maintaining good health.

It would be most unfortunate if these students who have been subjected to a rigorous medical examination before being allowed to enter Canada, are to suffer ill-health while living in Canada, due to unsatisfactory living conditions.

It is sincerely hoped that the authorities on this campus would take serious notice of this fact and make arrangements so that, at least in the future, foreign students do not come to this campus unless suitable accommodations can be provided for them.

Disgruntled Overseas Student

Religious Humbug

In a recent article in this paper a writer regretted the fact that about 80% of the students on this Campus are confused by the Faith as preached by most established churches.

In my humble opinion it is not Christ's philosophy that puzzles them, as presented in the Sermon on the Mount, but the pagan dogma in which it is wrapped. How are we expected to believe in a virgin birth and the "resurrection of the body"? Are we expected to believe in "vegetative reproduction" in human beings and the spontaneous generation of life in corpses? If so, we are expected to ignore the evidence of science. The bigoted usually try to separate science from religion, but clear-thinking people recognize that both these

philosophies are searching for the same truths, and should therefore not be antagonistic to one another. Of course science may be wrong occasionally, but the job of all scientists is to search out truth in a methodical manner, and nothing is accepted as a scientific truth without having undergone intense scrutiny. Unfortunately, many "religious" people expect one to accept their theories, simply because "it's in the book". This is a negative attitude, similar, incidentally, to that of the Communists who refer to Marx's theories. To my way of thinking the Churches' arguments are not convincing in view of the fact that the information pertaining to Christ's "resurrection" is largely second hand, there being no written evidence from the time of the Crucifixion. The first reference was in fact made by Paul in the 50's of the first century A.D., who reported having seen the risen Christ. The "empty tomb" was not reported until some 30 years later.

For many of us, Christ's strength lies in his humanity. During his life he made a noble effort to flood the hearts of his fellow men with a wonderful philosophy for life. It is this philosophy that we should try to understand and revere in our lives, not the out-dated pagan ideas that have split the Christian body into so many sects. Furthermore we must realize that since Christ's death many other truths have unfolded themselves and will continue to do so. Hence it is the duty of everyone of the Christian faith to modify his beliefs as new experiences reveal new truths.

Unitarian.

Open Invitation

The West Indian Student's Society invite ALL STUDENTS to the showing of documentary films on some of the West Indian Islands in Laird Hall reception room on Sunday October 27th at 1:30 P.M.

Dean Replies To Charges

In an interview with the Vice-Principal on the subject of political speakers on the Campus and the lack of activity of students interested in either traditional or radical forms of political thought, Dr. Dion indicated that he was somewhat disturbed over the implications of two statements in the editorial in the issue of the "Failt-Ye Times" for October 18. The first statement is: "We cannot recall an occasion when a controversial or radical figure in the field of government or otherwise has been permitted to address a segment of our student body". Dr. Dion indicated that on his part, he could not remember an occasion when permission had been denied.

With regard to the second statement: "Unless the College authorities grant us this freedom of choice, they will be failing down in an area of their responsibility to the student body", Dr. Dion indicated that it was his impression that this freedom of choice was granted a long time ago and he felt that the student body should be aware of this.

He drew attention to the fact that Mr. T. C. Douglas was invited by the seniors to address the Senior Banquet two years ago, and that one of these gentlemen would consider that they had been treated fairly if they were excluded from a list of "controversial or radical figures in the field of government", Dr. Dion said.

Community Chest Drive

Noted steel drum player tries his hand at ring toss at the Monte Carlo Night.

Enthusiasm and spirit ran high at Macdonald last week as the students of the college joined in raising a total of \$450 during the annual Community Chest campaign. Competition was keen between the classes as each tried to outdo the other to receive class points.

The week began on Tuesday, October 15, with Monte Carlo Nite, put on by the Freshmen. The atmosphere was gay with games of poker, bingo and roulette enticing the crowd, along with the always-popular fortune teller. The total for the evening came to about \$100.

Amateur night, organized by the Literary and Debating Society, was held Wednesday evening before a large and enthusiastic audience. The

evening was most successful and enjoyable, judging by the audience reaction to the variety of talent displayed: from folk singing and poetry reading to piano playing and western music. Several of the performers were called back to play or sing an extra number as yells of 'encore' filled the auditorium. The final judging gave honourable mention to Dick Whittaker for his excellent reading of two poems, fourth prize to the Commuters, third to Cheryl Gasscoir, and second to Julie Overland — all singers; and first prize to Peter Dupuis on his honky-tonk piano. \$175 was collected.

Thursday, October 17, saw all students busily digging into their pockets for a few extra pennies to contribute to

Nets \$450.

their class for the annual Penny Race.

The Race was put on by the sophomores, with six groups containing all faculties, competing for class points. The race was close between groups 3 and 4, with group 4 (II and III year Home Ec. and Aggies) finally winning with 8 feet (\$24).

Total profits were a little more than \$50.

On Friday, the Juniors held a show with 'Gateway to the Mind' and 'Tom, Dick, and Harriet' as the new addition to the week. Attendance was poor and profits came to about \$10.

Many thanks to students taking part and organizing the campaign.

Chere Campbell and Doug Sargeant count proceeds from Penny Drive.

Tony Johnson Pulls His Pants Up

"From Pants-dropper to Producer in One Easy Lesson"

On the suggestion of this year's Green and Gold Executive Tony Johnson pulled up his pants and became producer in one easy motion. (For those who were not here last year, T.J. had to lower his apparel on stage behind a latrine door in last year's Green and Gold until it was censored out).

Peter Anderson chaired the first meeting of the Green and Gold this year and some of the executive were elected, namely: Tony

Johnson, Producer; Carol Wexler, Secretary; Al McKinney, Assistant Director; Lois Henderson, Music Director; Tina Selwick, Choreographer; Elaine Hill, Assistant Choreographer; Rieks Toxopeus, Lighting; and Dick Whitaker, Publicity.

Brian Kennedy told the meeting that Students' Council had set aside \$50 for the best script to be allocated as: \$30 first prize, \$15 second prize, and \$5

third prize, for acceptable material. The meeting agreed that November 23 would be the final deadline for the acceptance of scripts. These scripts will be vetted by the Green and Gold Committee, Students' Council, College Royal, and if necessary, a censorship board.

It was generally agreed that the scripts should be basically musical and if no acceptable script turns up, then no show, so get your pens out and write.

By the tenor of the meeting and its enthusiasm, it seems that we'll be having a terrific show this year. Give the Green and Gold all your support and they'll give you a show to remember.

New Lab For Economics Entomology - toxicologie

For all of you who are not in the know, ECONOMIC-ENTOMOLOGY-TOXICOLOGY is to be found in room B-2 of the Biology building. Here such problems as the control of insects and what happens to insecticides on or in an animal are studied in detail.

Anybody at all interested in the diverse aspects of farming will find they rely to a greater or lesser extent on insect control, or find they must have some sort of an acquaintance with the problems of pest control.

At Macdonald there are quite a number of graduate students working under Dr. Morrison on problems related to the use of insecticides or bacteria for pest control.

These graduate students are waiting to move into their new

laboratory which will be finished in the next few days.

Mr. Best and his men from Buildings and Grounds have been going full blast over the past few days fabricating an up-to-date laboratory.

At the rate things are going now, soon a half a dozen happy graduate students will start to work with new facilities.

P. S. Barker.

Council Corner

Students council, at last Monday's meeting, discussed the following items:

A new constitution was passed for the purchasing committee. Barry Stephen was appointed Chairman of this committee. Lavigne's now handles the three kinds of College jackets; Melton, leather and Nylon.

College jewellery is on sale in the Book Shop. Class sweaters, rings, pennants, and crests are available from Ron Brown — Ste. Marie Road.

Sweaters should be ordered through Class Reps. Council is considering selling scarves and sweat shirts as well. Art exhibits, such as the one now in the Stewart Foyer, are being arranged for, as previously, by a Staff-Student Committee.

Committee Representation: 2 from Home Ec.
2 from Agriculture
2 from Education.

Permanent arrangements have been made for the use of the Council Duplicating machine.

Let's Talk "Shop" (Coffee That Is)

The completion date of the New Coffee Shop draws nearer as the New Year approaches. At present only the last finishing touches are required before the Brittain Hall Boys begin the long hard trek for that cup of coffee (black of course).

The kitchen will remain basically the same as is presently used in the Old Coffee Shop with the exception of the fact that new equipment will be provided. Short orders will again prevail and french fries will provide a pleasant addition to the menu. Dispensers for milk and coffee will also be installed; however soft drinks may or may not be pre-machine mixed.

All bridge players will be happy to note that there will be special card tables and chairs to be used solely for this purpose and that the restrictions regarding playing bridge at lunch and supper hours will be lifted. There will also be square, round, and long tables provided for the conversationalists and gourmets.

The dance area, as mentioned in early reports, will be located at the east end and will be partitioned off by a mobile section which prevents identification of dancers, as figures, not faces will be visible. The presently

available dance space will not be lost because the furniture can be rearranged in the lounge to give a large dance area.

The T.V. area will be located in the north west corner and a seating capacity of thirty to forty people will be possible.

Contrary to most peoples ideas there will be no conflicting between the T.V. and dancing areas in regards to sound. A large number of small speakers will be inset in the ceiling over the main Coffee Shop area and over the dancing area for jukebox music, while a similar amplifying system will be employed over the television area. This system however can be interchanged to provide the complete area with music or play-offs, or just a blow by blow description of Stoney Burke in the dancing area.

Just inside the door of the actual Coffee Shop there will be a new promotion area. This area will be strictly used for the publicity of coming events such as Royal or Carnival. A large Macdonald Crest will also hold a special permanent place in this area.

All in all the New Coffee Shop, pet project of Jim Banting, Jane Hall and Brian Kennedy should prove to be a pleasant addition to the college and to the students' recreational facilities. Let's hope its finished before some graduate and never get to appreciate it.

I.V.C.F. To Discuss Religion

The Macdonald Christian Fellowship will attempt to answer the questions put forward in last week's article on religion by Gail Vallance in a panel discussion to be held in Stewart Room on Thursday 7th of November at 6:30 p.m. The topic will be ably dealt with by persons who are competent to undertake the task. Look out for further information in next week's issue of the Failt-Ye.

M.A.A. Speaks Out

We apologize for the fact that there is no sports coverage in this edition. Instead the M.A.A. has decided to publish the following editorial, on the question that publicity is essential to any athletic program.

Every year a staff is appointed to devote their extra time to informing students as to the happenings around campus. Due to the fact that class editions literally take over the paper, these people who are recognized as knowledgeable in the literary line do not get a chance to report but must lie fallow and watch inexperienced people do their work. It is not our intention to criticize anyone, but we simply wish to know why our sports coverage has been disappointing. Up to date we in the M.A.A. have largely been doing the on-campus publicity. We realize that this is not the fault of the Editor or the Sports Editor; it's due to the fact that each week a different class is responsible for putting out the Failt-Ye.

It is not the class nor anybody in particular, but the present system of publicity, which is discouraging. From inadequate publicity, money is being literally thrown away. Thus the students are unaware of sports happenings which results in a lack of support and spirit. Without such support we cannot hope to field a winning team in any sport. As you are undoubtedly aware, each student through his activity fees is paying for this loss. The Publications department, as well as the M.A.A., are student activities being supported by these fees. Not only is our campus publicity suffering but also our off-campus publicity through the Montreal newspapers, radio and T.V. The information required by these news media is simply not reaching them. Why? We are trying to find out.

We apologize to the people we have importuned in writing this article, but it was deemed necessary by the M.A.A. We hope that our views will be looked into and that an incorporated system with the proper people doing the job will be initiated.

SOCER AGGIES SPLIT LAST TWO ENCOUNTERS

The Mac Aggies got on the right foot as they defeated the Loyola Squad here two weeks ago.

The first half was a hard fought battle with both teams showing tremendous drive. Near the end of the first half, Jeff Dunn scored a beautiful goal putting the Aggies ahead. Loyola bounced back at the beginning of the second half, tying the score. In the dying minutes of the game

Jeff Dunn scored again to give the Aggies a 2-1 victory.

At McGill this week, the Aggies, short of players, went down to defeat. The score at the end of the first half was 1-0 for McGill. In the last half McGill showed their strength and scored three unanswered goals and the Aggies lost 4-0.

The Aggies take on the Carleton U. squad this weekend and we wish our boys lots of luck.

Teacher's Class Party

There will be a party at the "Red Barn" given by the first year teachers on Wednesday, October 30th from 8:30 till 12:30 A.M. The dress is very informal, so use your discretion. Refreshments will be served, with one definite thought in mind; since there is no liquor to be served at freshman parties before Christmas, again, it will be required that you all use your discretion.

Un homme sérieux mais pas trop will be on hand as chaperon here as more of tradition than that of everseer. Entertainment will contain a group from the Amateur Night show.

So if you all want to kick up your heels and have fun, and I mean fun, the "Red Barn" is the place to go on Wednesday night, October 30th.

Men's Class Volleyball

Men's Interclass Volleyball will commence Monday night, October 28th, 1962 in the Brittain Hall gym. Each class may enter two eight man teams. David Hay, our convenor, will accept the team lists from the class reps to-day. Watch the notice board.

B. Ed. Dinner

Tues. Oct. 29th
All B. Ed. students
are invited

ONE MINUTE FROM THE THEATRE

WOODSMEN TO U.N.B.

U.N.B., here come the Mac Woodsmen. Yes, Macdonald College Woodsmen left this morning for their first meet of the year being held tomorrow, Sat. Oct. 26, at the U.N.B. campus.

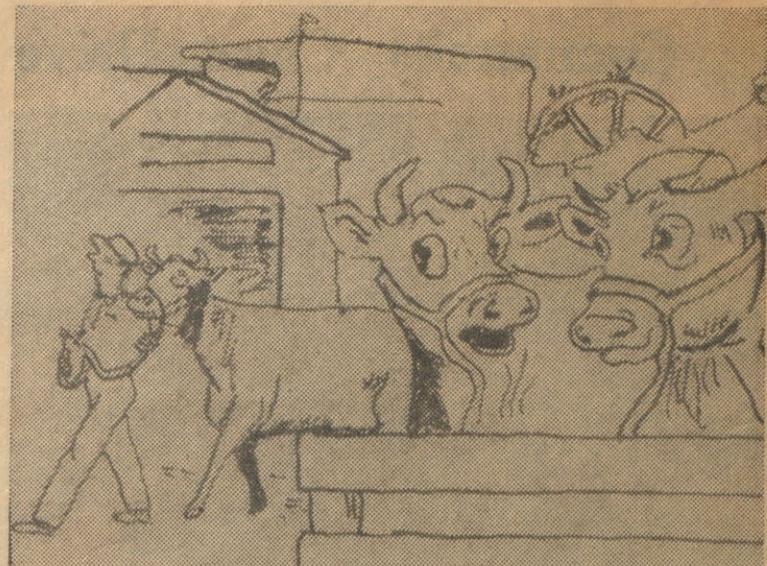

For three weeks the woodsmen have been practicing under the supervision of coach Bob Watson of the Morgan Arboretum. Earlier this week Mr. Watson picked his team. They include Bub Hulan, Jim Cochran, Len Best, Al Miller, Bob Robson, Doug Avery and alternate Bob Daniels.

The boys shall be entering nine events as follows: chopping, splitting, cross-cut sawing, swede sawing, power sawing, chain throw, decking, water boiling, and canoeing.

We would like to wish the Mac Woodsmen every success.

M.A.A.

EDITOR'S NOTE
The first part of this editorial is perhaps this leading. It was impossible to omit and replace the M.A.A. Sports coverage do to the necessity of meeting the publication deadlines.

"That glossy shine all her own? Only her herdsman knows for sure!"

Women's Athletics Underway

Intercollegiate activity will be starting the 1963-64 season with Basketball, Volleyball and Hockey practices beginning as follows:

Basketball — Intercollegiate Senior and Intermediate teams starts October 29 Tues. and Thurs. 7:00-8:30 p.m.

Volleyball — Intercollegiate practices starts Oct. 28 Mon. and Wed. 7:00-8:00 p.m.

Ice Hockey — Intercollegiate practices starts Nov. 6 Wed. and Fri. 6:00-7:00 p.m.

Class Representatives are get-

ting their teams set up for the starting of Interclass basketball on Oct. 28.

Other activities scheduled to start are:

Archery — beginners classes and team practices starts Nov. 4, Mon. 8-10 p.m. Coach Mr. Linder.

Badminton — Tournaments start Oct. 29 Tues. and Thurs. 4:40-5:30.

Swimming — Stroke improvement starts Oct. 29 Tues. and Thurs. 7:00-8:00 p.m.

Interclass Speed Swimming night of Oct. 20.

Keep your eyes on the W.A.A. bulletin board in Stewart Hall for dates and times.

Harrier at Home & Abroad

On Monday October 21st, the Men's Interclass Harrier was held, and the winner of the grueling race was Kevan Aucoin, of Agriculture 4, who posted a time of 13 minutes and 24 seconds for the stiff two and a half mile race. The

total entry of the race was 66 contestants and a hand should be given to all those that participated. The final class standings were as follows, followed by the points for the class:

Agriculture 3	50
Teachers 1	20
Agriculture 4	16
Agriculture 2	9
Teachers 3, (2S) ...	6
Agriculture 1	5
Agriculture Dips ...	5
Teachers 2	4

INTERCOLLEGiate HARRIER

The Intercollegiate Harrier team will depart for Lenoxville to-morrow to compete in the Ottawa-St. Lawrence championship race over a hilly 3.2 mile course.

This Week's Interclass Football

Post Grads 19 — Teachers 1, 0
Agr. 2, winner — Teachers 2, Default
Agr. 3, 20 — Teachers 1, 6
Agr. 2, 12 — Agr. 1, 14
Post Grads 7 — Teachers 3, 19
Teachers 2, 19 — Teachers 1, 12
The league standings as of October 22nd:
Agr. 3, Agr. 2, and Post Grads all have 7 points
Agr. 1 and Teachers 3 both have 5 points
Teachers 2 have 3 points
Teachers 1 have 0 point.

Fieldhouse . . .

(Continued from Page 1)

Dr. Dion then thanked Vice-Principal Fieldhouse for his thought — provoking talk; this Annual Assembly then ended with the academic recessions.
